	<p>Vendor code: 61207</p> <p><b><u>BUY PEPTIDE ANTI-AGING SOAP</u></b></p>
<p>Description</p>	
<p>Handmade soap Anti-aging series SPA LINE not only gently cleanses, restores, moisturizes the skin, but also protects it from aging. Highly active components of GHK-Cu (tripeptide of copper), HPE-4 and a whole range of plant extracts work together to make the skin more youthful, fresh, elastic and moisturized. Soap tones and refreshes the skin, as well as increases mood, gives a charge of vivacity for a whole day.</p>	
<p>Purpose:</p>	
<ul style="list-style-type: none"><li>• reduce the number of wrinkles</li><li>• strengthen the contours of the face</li><li>• stimulate the synthesis of elastin</li><li>• smooth uneven skin</li><li>• reduce skin pigmentation</li></ul>	
<p>Ingredients</p>	
<p>Saponified Vegetable Oils (Olive Oil, Camelina Oil, Coconut Oil, Palm Oil, Corn Oil, Castor Oil), Water, Glycerin of Vegetable Origin, Olive Oil, Castor Oil, Beeswax, Grapefruit essential oil, Vitamins E, F, Tetrahydroxypropyl ethylenediamine (HPE-4), Sodium Lactate, Sodium PCA, Fructose, Urea, Niacinamide, Inositol, Sodium benzoate, Lactic Acid, Paprika, Chlorophyll paste, Cinnamomum, Coffee seed poeder, Copper Tripeptide-1 (GHK-Cu).</p>	
<p>Main components</p>	
<p><b>GHK-Cu (Copper Tripeptide-1)</b></p> <p>It has a restorative, rejuvenating and protective effect on the skin, regulating skin renewal and remodeling processes, accelerating the healing of wounds and other damages,</p>	

stimulating the synthesis of collagen and glycosaminoglycans in the dermal matrix and maintaining a balance between the processes of their synthesis and destruction, as well as direct and indirect antioxidant action . It is also capable of restoring the functionality of damaged skin cells, in particular fibroblasts, and supporting the reparative potential of stem cells.

#### **NUF Lactone**

Allows the horny layer to retain moisture under the drying effect of the environment, protecting the skin from cracking and peeling. This component contains only 1 amino acid - glycine, but it has a very balanced composition for moisturizing components. The natural moisturizing factor perfectly improves the appearance of the skin and stimulates its basic functions. It promotes the regeneration of the skin, improving the protective function and smoothing the visual manifestations of age, helps moisturize the skin, helps to retain water in it and makes it more elastic and healthy.

#### **Grapefruit essential oil**

Has immunomodulatory and antibacterial effect; optimizes mood, relieving obsessive depressive thoughts; Relaxes, relieves stress; It shows the qualities of aphrodisiac, tones up and improves working capacity. Grapefruit oil tones and refreshes the skin, enhances the mood, gives vivacity.

#### **Castor oil**

Primarily used as a nutrient for dry skin. Possessing a very strong nourishing and softening effect, it helps to cope with such skin problems as dryness, lack of moisturizing, peeling, coarsening, unevenness and loss of elasticity of the skin. Also, castor oil can be an excellent emollient and soothing remedy for sensitive skin care.

#### **Vitamin E**

One of the most valuable cosmetic ingredients, an active antioxidant. Protects the lipids of the cuticle and collagen fibers from oxidation and destruction, thus preserving the elasticity of the skin. Protects against premature aging, which is caused by exposure to harmful environmental factors. Has a moisturizing effect and gives elasticity to the epidermis.

#### **Vitamin F**

Due to its anti-inflammatory effect, heals wounds and ulcers, stimulates regeneration and metabolism. Therefore, it is also called a vitamin of beauty, like biotin - vitamin N.
