

GOTRATIX - peptide bioregulator for the muscles

	<ul style="list-style-type: none">❖ Peptides❖ Citomaxes❖ Gotratix❖ Peptide bioregulator designed to protect the function and health of the muscles <p>Vendor code: 60208</p> <p>BUY GOTRATIX</p>
Description	
<p>Gotratix is a compound of peptide fractions that are extracted from the triceps of young animals. These extracted peptides have a selective effect on myocytes, regulate their metabolism and increase their functional activity.</p> <p>It has been clinically established that Gotratix is efficient in increasing the spare capacities of muscular tissue and decreasing the muscular fatigue under vigorous physical activity conditions, including exercise or professional activity related to high-impact physical load.</p>	
Purpose:	
<ul style="list-style-type: none">• For sportsmen and individuals involved in manual labour• For increasing the spare capacities of muscular tissue• For decreasing the muscular fatigue	
Ingredients	
Peptide complex A-18 (peptides from the triceps). Inactive ingredients: microcrystalline cellulose (E460), beetroot sugar, lactose, starch, Tween-80.	
Directions	
1-2 capsules, twice a day during food intake. Duration: 1 month. Repeat every 3-6 months.	
Form release:	

60 capsules of 0.2 g

Production

Scientific and Production Center of Revitalization and Health

St. Petersburg University of Bioregulation and Gerontology
