	Vendor code: 60417
	<a href="#"><b><u>BUY PEPTIDE COMPLEX 17</u></b></a>
<b>Description</b>	
Peptide complex for the visual analyzer (eyes). Has natural peptides from vessels, brain tissue and the eyeball.	
<b>Purpose:</b>	
<ul style="list-style-type: none"><li>• Prevention of pre-mature ageing,</li><li>• Diabetic angiopathy,</li><li>• Hypertension,</li><li>• Retinal detachment,</li><li>• Atrophy of the optic nerve,</li><li>• Glaucoma,</li><li>• Cataract,</li><li>• Floaters in the eyes,</li><li>• Myopia.</li></ul>	
<b>Ingredients</b>	
Distilled water, peptide complexes A-3,A-5,A-10, glycerin, bio-antioxidant complex "Neovitin <sup>®</sup> ", phenoxyethanol with ethylhexylglycerin, propylene glycol, xanthan gum, PEG-40 hydrogenated castor oil, essential oil of chamomile, methylchlorizotiazolinon, methylisothiazolinone.	
<b>Application method</b>	
From 6-8 drops apply on the inner elbow part of the arm, perform massage movements until the substance is completely absorbed. Duration - 3 months. Up to 6 peptide complexes can be used at the same time.	

<b>Main components</b>
<ul style="list-style-type: none"><li>• The essential oil of chamomile</li></ul> <p>The essential oil of chamomile in sufficient quantity contained substances such as chamazulene and bisabolol, which are often used in the production of child and hypo-allergenic cosmetics. Both substances have an effective sedative, anti-inflammatory and soothing effect. In addition, the composition of chamomile oil include various hydrocarbon compounds - farnesyl Kadin, terpinenes and so on. Essential oil of chamomile has antibacterial, anti-inflammatory, tonic, analgesic and wound-healing properties. It detrimental effect on a number of pathogenic bacteria that can effectively use it as an aid in diseases such as angina, bronchitis, laryngitis, pneumonia and conjunctivitis. Chamomile oil enhances the immune system, stimulates appetite and has a positive effect on the function of the gastrointestinal tract, especially gastric ulcers and duodenal ulcers. In general, properties of chamomile oil in many respects similar to the properties of lavender oil, with the only difference being that the essential oil of lavender is recommended in the presence of acute pain, and the essential oil of chamomile - aching with pain. It helps to cope with insomnia, relieves tension and stabilizes emotions. Furthermore, chamomile oil favorably affects the operation of the brain and activates the memory.</p> <ul style="list-style-type: none"><li>• Neovitin</li></ul> <p>Bio-antioxidant complex Neovitin comes from original technology of the cultivated strains of biotechnological method from the ginseng biomass. The new technology allows achieving the most complete extraction of the complex without losing its antioxidant activity. Bio-antioxidant complex Neovitin is anti-inflammatory and has immune stimulatory effects. Synergistic effect of the active components of the complex leads to the production of antioxidant enzymes in the body and interferon, which inhibit the reaction of peroxide oxidation (destruction) of lipid cell membranes of blood vessels whilst strengthening them, and thereby increasing the resistance of the body. Neovitin controls the formation and leads to the physiological formation of the main instigators of premature aging - free radicals, which are developed of throughout human organism life. It is also the main agent to neutralize free radicals. The complex is stable during its storage period and has a high, penetrating ability through the epidermis, dermis and mucous membrane. It has been proved: Neovitin has anti-inflammatory and regenerative effects, which result in its widest application in anti-aging skin and health care products and oral care. The unique properties of Neovitin have been confirmed by 11 patents and awarded gold medals RANS with the name of II Mechnikov "For a practical contribution of improving the health of the nation" and Paul Ehrlich of the European Commission for Academic awards "for outstanding achievements in the field of social and predictive medicine".</p>
<b>Form release:</b>
10 ml
<b>Production</b>
Scientific and Production Center of Revitalization and Health St. Petersburg University of Bioregulation and Gerontology
